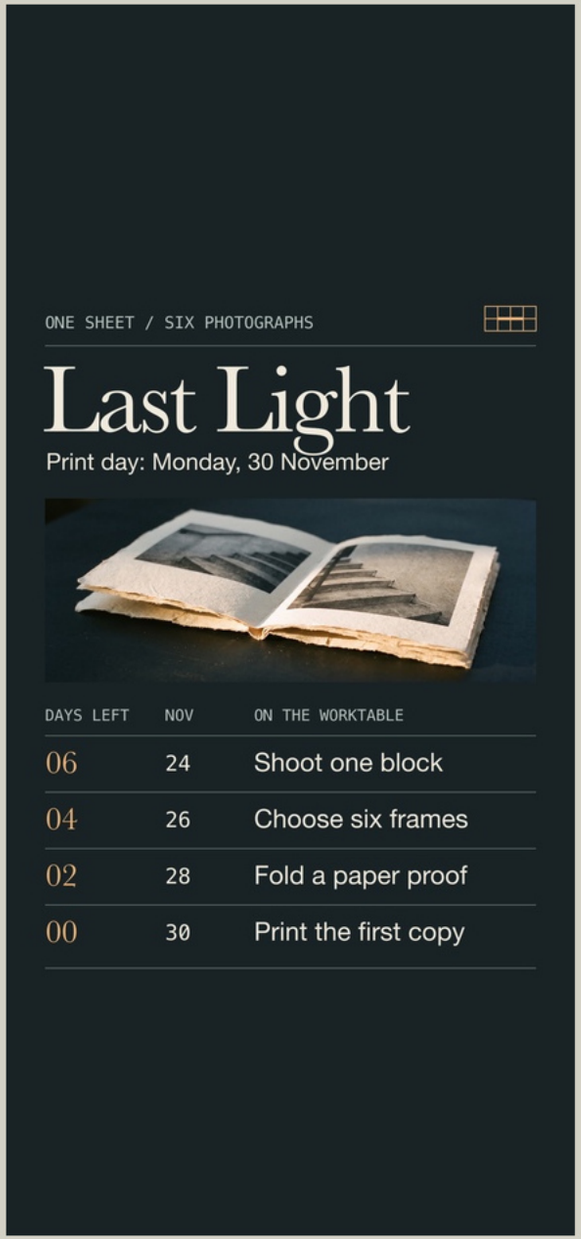
FIELD STUDY / 01

Last Light

One block at dusk.
Six photographs. One folded sheet.

23–30 NOVEMBER 2026



THE ALL-WEEK LOCK SCREEN

Make the first copy.

One block, six pictures, one folded sheet. The deadline is the object, not the export.

THE WEEK

NOV 23	**Fold a blank dummy**	Number eight pages. Pick one walkable block.
NOV 24	**Photograph the block**	Get one wide view, one shadow edge and one detail.
NOV 25	**Return to the same spot**	Reshoot one frame as the light recedes.
NOV 26	**Sequence six photographs**	Read the pictures from the broadest light to the last sliver.
NOV 27	**Lay out the sheet**	Place six frames between the front and back covers.
NOV 28	**Make a folded proof**	Check page order and whether the darkest print reads.
NOV 29	**Fix the weakest spread**	Correct the crop, exposure or orientation. Reproof it.
NOV 30	**Print and fold one copy**	Turn every page. The finished copy is the deadline.

ON THE WALK

Where does the light disappear first?

One repeatable camera position

Time of first frame / time of last frame

Which two pictures should touch in the fold?

TRY THE FOLD

Print page 3 alone, single-sided on US Letter, landscape, actual size. Crease into eight panels. Unfold and slit only the solid line in the center. Fold lengthwise, print facing out. Push the short ends together until the slit opens into a cross. Wrap the pages into a book with Last Light on top.

Passes if: frames 01-06 read upright in sequence.

TOOLS Phone camera / one sheet per proof / scissors / printer

The cover is Gemini concept imagery. The six photographs in the finished zine are for the maker to take.
